APRIL OFFSET PAPER

QPC BENEFIT FOR CUSTOMERS

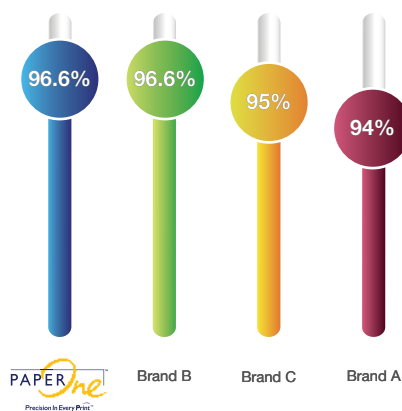

APRIL Offset Paper is engineered to be your blueprint for peak performance and reliability. More than just paper, it represents a measurable investment in efficiency, backed by our proven Quality, Productivity, and Cost Savings (QPC) approach.

The QPC results that follow showcase how our superior paper consistency ensures superior print Quality, accelerates press Productivity, and minimizes waste delivering substantial, long-term Cost Savings for your business.

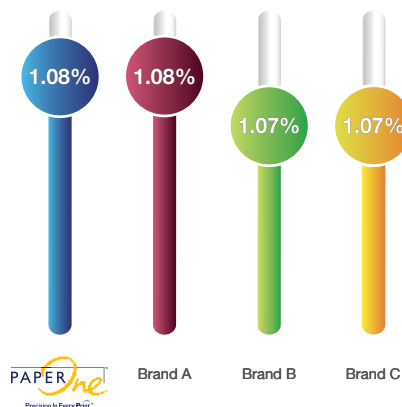

QUALITY

Superior print quality and reading experience

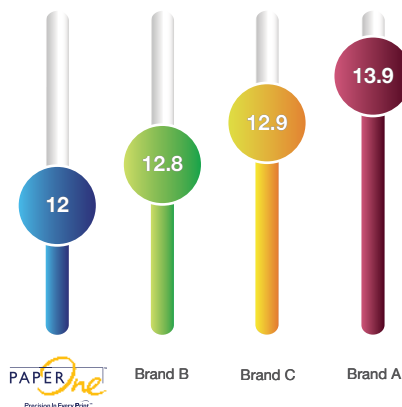

HIGHER OPACITY

HIGHER INK DENSITY

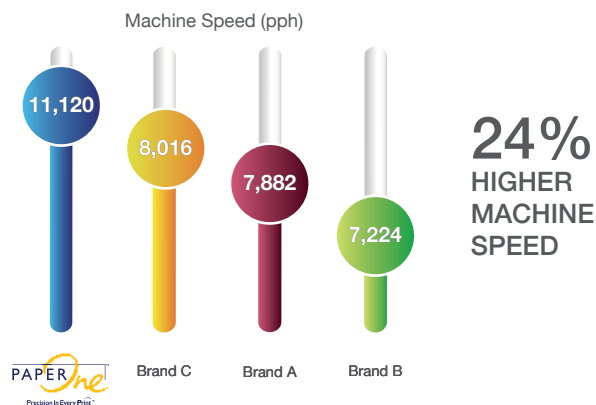

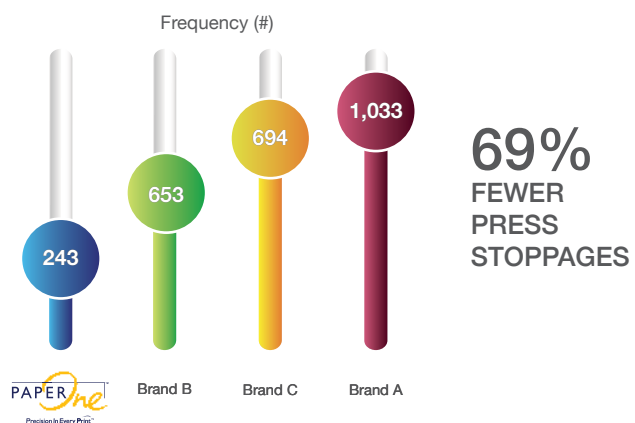

LOWER DOT GAIN

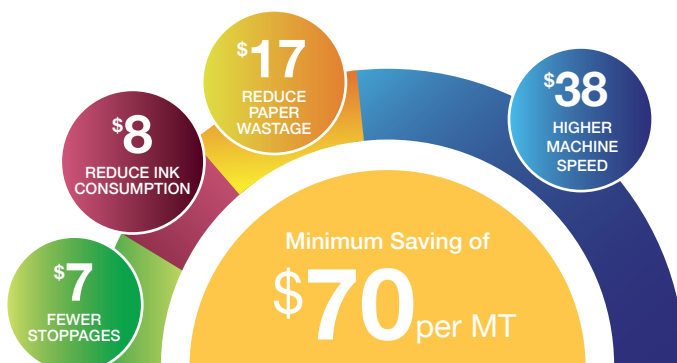

PRODUCTIVITY

Up to 31% higher productivity

COST

Minimum savings of up to USD70 per MT

*Based on benchmarking studies under controlled conditions.

PRINTING AND PUBLISHING PAPER

Application:
OFFSET

Product Solutions
Premium paper designed for full colour, high-speed offset machines for best quality print jobs.

Premium quality paper for writing grade products like diaries, exercise books, and notebooks.

DIGITAL PAPER

Application:
DIGITAL PRINTING AND INKJET

Product Solutions
Superior quality paper enhanced with ProDigi™ HD Print Technology to print full colour on modern high-speed inkjet machines for print-on-demand, variable data, transactional and trans-promotional print jobs.

Application:
HYBRID PRINTING (OFFSET AND DIGITAL)

Product Solutions
High quality paper for hybrid printing (offset and laser printing products) to print stationery, variable data, envelope, transactional, and trans-promotional jobs.

Application:
LASER PRINTING

Product Solutions
Premium paper for full colour, dry-toner (xerographic) paper for engineering plotter roll, transactional, and trans-promotional print jobs.

SPECIALTY PAPER

Application:
ENVELOPE

Product Solutions
Specially engineered for modern envelope making machines. PaperOne™ Envelope is available in high-bright white shade and natural white shade.

Application:
BASE FOR THERMAL COATING

Product Solutions
Crafted with good surface smoothness, consistent thickness and moisture control, making it the ideal foundation for a wide range of applications including receipts, labels and baggage tags.

Application:
SHOPPING BAGS PROTECTIVE WRAPPING

Product Solutions
Demonstrates versatility across different application such as shopping bags, wrapping paper and protective wrapping, delivering high strength, high whiteness and high surface smoothness.

Achieve Higher Quality with APRIL's **Printing and Publishing Paper and Digital Paper**

Printers, publishers and converters in over 110 countries choose to use our products for high quality results on modern high-speed web and sheet-fed converting machines.

APRIL's **Digital Paper** offers the best reading experience with exceptional print quality in terms of opacity, shade, and brightness. Our Digital Paper – Inkjet Paper products are enhanced with ProDigi™ HD Print Technology to save up to 18% of ink use while providing smudge-free printouts with vibrant colours and crisp lines.
